

Innovative cyber insurance solutions for businesses seeking to manage enterprise cyber risks

CyberGuard 2023 | Highlights

Measured Trust, quantified.

Measured Analytics and Insurance is a U.S.-based cyber insurance MGA that utilizes proprietary, AI-rich data analytics and national security grade threat intelligence to deliver smarter cyber insurance solutions.

At Measured, we provide more than cyber insurance, we light the path to confidence and security in cyber realms. We offer practical answers and innovative cyber insurance solutions for businesses seeking to manage enterprise cyber risks. Using AI-based insights, our aim is to make our customers fluent and confident in integrating financial risk mitigation and cyber risk management into enterprise risk management.
